## MAJESTIC OIL

**PROTECTIVE OIL**  
since 1982

Theo, crafting oils

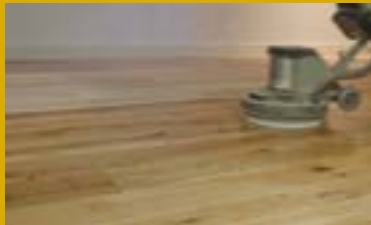

For nearly 40 years, the RIGO Verffabriek craftsmen have been producing ROYL floor oils, made of 100% vegetable oils and so effective that a single treatment is sufficient. The oil penetrates deep into the wood pores to provide long-term protection against moisture and dirt. Thanks to ROYL performing effectively for years on even the most intensively used floors, the renewable nature of the raw materials, the comprehensive colour palette and the carefree method of application, we can make the following statement:

**ROYL is the King among oils.**

# ROYL MAJESTIC OIL

**FASTER THAN EVER**  
AN ULTRA-STRONG OILED FLOOR

### **Faster than ever**

ROYL OIL 2K is the fastest drying oil available on the market, because it will be dry and stable after just 24 hours.

The ROYL products can be applied to the entire floor surface and buffed dry in a single session, so the work will not take multiple sessions to complete. Without furs or overlap!

Moreover, it can be used sparingly: 1 litre is sufficient for 30 to 40 m<sup>2</sup> and only one treatment is enough for optimal protection. Cleaning is surprisingly easy, you just need to mop the floor with the ROYL Mild Cleaner.

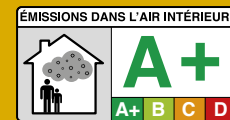

### **Ultra strong**

A floor treated with ROYL is very strong. The oil will be INSIDE the wood, impregnating, nourishing and protecting the wood from within. This makes the protective layer resistant to abrasion, water and dirt. ROYL ensures that the floor is highly suitable for intensive use.

### **Modern colours**

We assembled modern colour fans with fashionable shades of grey and natural timber shades especially for ROYL OIL products. The ROYL products are easy to colour with individual COLOUR PIGMENTS in a handy squeezable pouch.

ROYL products are Indoor Air Quality Certified, and have a Swiss A+ Umweltetikette label and a DIBT Zulassung for Germany.

### ROYL OIL 1K

- Since 1982 (previously called Aquamarijn Corcol), applied on millions of square metres.
- Impregnates, nourishes and protects wood from within.
- A unique blend of 100% natural and renewable oils without solvents.
- High efficiency; 30-40m<sup>2</sup> per litre.
- Basic Clear #4550, colourable with individual COLOUR PIGMENTS.

### ROYL OIL 2K

- Will be ready for heavy traffic and moist cleaning after drying for only 24 hours.
- Can be applied to the entire floor surface in one session.
- High efficiency of 30-40m<sup>2</sup> per litre.
- A+B components are 90% natural and renewable together.
- Completely free of solvents.
- For very intensively used floors.
- Basic Clear #4560, White #4561 and Black #4562: colourable with individual COLOUR PIGMENTS.

### ROYL OIL 2K 0,5 litre

- 7 READY-MIXED colours that match the application of the furniture maker.
- Available in: C10 Alaska White, C10+10 Double Alaska White, C09 Mountain Grey, W10 Livid, C11 Natural Oak, B20 Pitch, C30 Original Oak.
- Has a beautiful and natural appearance.
- Contains 100% pure oils and no solvents.

### ROYL PROJECT MAINTENANCE 2K

- Provides additional protection to intensively used surfaces, such as museum and shop floors.
- Same application as for the ROYL OIL 2K.
- Applicable in 1 thin layer on a floor treated with ROYL oil.
- Component A is 100% natural.
- Stable and able to bear loads after 8-12 hours.
- Very high efficiency of 100-150m<sup>2</sup> per litre.
- Only available in Clear #4580.

## THE ABSOLUTE KING AMONG OILS

## FOR FURNITURE OR A SMALL FLOOR

## PROFESSIONAL ROBUST PROJECT MAINTENANCE

# ROYL

## AGEING EFFECTS UNDER ROYL OIL

### ROYL REACTIVE STAIN

- Colour stain for ageing effects.
- Available in White #4011, Grey #4012, Burned #4013 & Smoked #4014.
- Must be finished with one of the ROYL oil products.

NEW

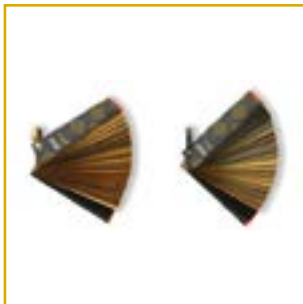

### ROYL OIL EXTERIOR

- Highly suitable for woodwork such as decks, fences, garden furniture and other wooden outdoor surfaces.
- Impregnates, nourishes and protects the wood from within.
- With extra UV protection.
- Based on vegetable oil.
- High yield of 15-30 m<sup>2</sup> per litre.
- Basic Clear #4570, colourable with individual COLOUR PIGMENTS.

### COLOUR PIGMENTS AND COLOUR SAMPLES

- 24 separate colour pigments for making any of the colours of the ROYL colour charts.
- Can be used for any of the RIGOV Verffabriek oil products.
- Try the colours out yourself using the colour samples.
- Colour samples are only meant to test the colours and are not suitable for use as a final product.

### ROYL COLOUR FANS

- From authentic oak floorboards.
- 23 authentic timber shades.
- 18 contemporary grey shades.
- The colours in these fans are always an indication.
- Always first apply a sample layer on your surface with the handy COLOUR SAMPLES.

### ROYL WATER-BASED MAINTENANCE OIL

- Intended for the maintenance of a ROYL-treated floor.
- Water-based Maintenance Oil only contains pure oils and water.
- No solvents.
- Is not greasy and therefore does not add an extra shine to the floor.
- Does not affect the colour of the oiled wood.
- Excellent manual processing.
- Only available in Clear #9080.

### ROYL MAINTENANCE OIL

- Classic maintenance oil for maintaining a ROYL-treated floor.
- Available in Clear #9090 and white #9091.

### ROYL CLEANERS

- **ROYL Mild Cleaner** #9110: regular damp cleaning will suffice.
- **ROYL Intensive Cleaner** #9120: powerfully removes dirt, polish and soap residue.
- **ROYL Floor Soap** #9130 and Floor Soap white #9131: leaves a soap film on the oil floor.

# WE MAKE

## PAINT VARNISHES & OILS

### RIGO Verffabriek sinds 1938

RIGO Verffabriek (RIGO paint factory) is a Dutch family enterprise that has been producing paint, oil and varnish products since 1938. We have been operating in IJmuiden since our company was founded. IJmuiden is a tough port with beaches and ships, dunes and industry, and a tradition of tackling issues head-on and saying what you have to say.

We strive to do so in the most progressive and honest way possible. That's why our products are innovative and why we use renewable raw materials as much as possible. This approach has resulted in the now renowned SKYLT technology, ROYL solvent-free oils, STEP water-based varnishes, EKODUR professional paints and TOPLIN linseed oil stand paint, for example. And those are only a few of the products we offer.

Furthermore, we have been growing our own linseed oil for our ROYL and TOPLIN linseed oil products on undeveloped land in the Randstad conurbation in the Netherlands since 2013. A contracting company harvests the crop and the oil mills in the Zaanse Schans historical neighbourhood grind the seeds to produce the linseed oil for us. This regional cooperation allows us to kill multiple birds with one stone; reintroducing an old Dutch crop into the landscape, enabling our World Heritage sites to operate and producing sustainable paint products.

Moreover, paint production at our company is true craftsmanship. We're proud of that. We can therefore say that RIGO Verffabriek is a platform by and for craftsmen. Together we create the best products. Together we create a Masterpiece.
